Japan's Rice Lands.
Twelve thousand square miles—7,680,000 acres—constitute the rice land of Japan which feeds a nation of about 50,000,000 people on an average of a pound a day for each person. It takes 135 days to grow a crop of rice, and in Japan the laborious work of cultivation is done almost entirely by hand.

Uncle Eben's Deductions.
"Dar must be somethin' in dis law of averages," said Uncle Eben. "Some o' de smartest men I know seems to rest up occasionally by bein' as foolish as possible."—Washington Star.

See what you get, too, in the Maxwell: not only a rugged, sturdy, tug-boat truck, but one that weighs only 2400 pounds. Which explains why so many Maxwell users are getting 16 miles to the gallon.

Service records show a verdict of 99.6% perfect based on the 6600 Maxwells now in use.

Exeunt Scarecrows.

One of the many improvements resulting from permitting women to run the farm instead of to waste out their lives cooking for the thrasher crew is said to be the substitution, on Long Island sound at least, of tailors' models for scarecrows. It is not likely that crows can distinguish a well-dressed man from an ill-kempt one, but no matter how the dear girls slump around when they are by themselves, they do like a man who dresses up well. Besides, the models undoubtedly improve the appearance of the place more than the scarecrows do. For one thing, a man with good clothes is not expected to engage actively in the farm work; one in his old clothes is out of place idling until the evening chores are done.—Buffalo Express.

Saving Food.

"Drink to me only with thine eyes"—so said the poet.

"Well?"

"What did the poet mean by that?"

"An early example of food conservation."

The Practical Girl.

He—You are the prettiest girl I ever saw.

She—That sounds all right, but I don't know how much the compliment is worth until you tell me how many pretty girls you have seen.

The Automobilist.

The man in front drives like mad all day, and the ladies sit still and look at the scenery. Man at the wheel has no time for that. When they stop for the night, he's too tired for conversation.—Atlantic.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system, thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
